ADVANCING HEALTH EQUITY IN SAN DIEGO

Josefa Alonso
With Dr. Hernan
Goldsztein

Thanks to Hernan Goldsztein, MD, Josefa Can Finally Hear Her Children's Laughter — For years, Josefa had experienced difficulty hearing clearly. When her daughter's pediatrician administered a simple test that Josefa failed, she was shocked to realize how severe her hearing impairment was.

Uninsured and with her health in jeopardy, Josefa was referred to Champions for Health. We turned to physician volunteer Hernan Goldsztein, MD, at Pacific ENT, who generously performed pro bono diagnostics and a cochlear implant for Josefa.

The highly specialized procedure went very well, and, thanks to Dr. Goldsztein, Josefa is able to finally hear her children laugh again. ♦

just wanted to
listen in my undies
